# WEBER® Q® GRILLS

**READY FOR ANYTHING** – WEBER'S INNOVATIVE AND SPORTY Q® SERIES OFFERS COMPACT GAS AND ELECTRIC GRILLS THAT LIGHT WITH A PUSH OF A BUTTON. THESE EVER SO POPULAR GRILLS RANGE IN SIZE TO MAKE PORTABILITY POSSIBLE FOR JUST ABOUT ANYONE, AND ARE ALWAYS GREAT FOR GRILLING OUT ON THE PATIO.

# SOMETHING FOR EVERY ADVENTURE

Back in 2003 when the first Weber Q® grill was launched, its innovative compact design and ease of use made it one of a kind. Over the years, not only has the Q® become a household name, but is now Weber's most popular series of grills.

The Q® ranges in size from the smallest portable Q® 1000™ gas grill; ideal for the thrill-seeking griller on the go, to the largest Q® 3200™ gas grill made for the city dweller with a smaller patio. Also featured in the series are two electric portable grills. Just plug the electric grill into an outdoor electrical supply and expect the same superior results as the gas grill. All Q® grills ignite with the push of a button and are equipped with porcelain-enameled, cast-iron cooking grates.

## IN BRIEF

- 1 **Lid and Body** – The Weber® Q® lid and body are made of painted cast-aluminum. They are durable, efficient, require minimal maintenance, and can withstand the heat needed to grill at any temperature. In addition, the shape of the lid and body allows for proper circulation of heat around the food for even cooking.
- 2 **Cooking Grates** – Weber's porcelain-enameled, cast-iron cooking grates combine the ease of porcelain-enamel with the superior heat retention of cast-iron.
- 3 **Stainless Steel Burners** – Made of high-grade stainless steel, Weber® Q® burner tubes stand up to the trace amounts of water in liquid propane. Each burner tube consists of a singular piece of steel with no welds, making them stronger and more resistant to rust and burn-through.
- 4 **Grease Management System** – The Weber® Q® body angles grease down the sides and out into a grease tray. Moving grease away from the burner tubes prevents unwanted flare-ups. The tray slides out for easy cleaning, and holds a disposable drip pan.

# **WEBER**<sup>®</sup> GAS GRILLS

**EVERYDAY HEROES** – Who wants to be stuck in the kitchen for hours? Step outside and enjoy the fresh air while cooking a delicious meal on a Weber<sup>®</sup> gas grill. With a push of a button your grill is lit and a delectable meal is soon to be devoured.

Gas grills are more popular now than ever before. Their speed and ease of use make it possible to grill during the week when things need to happen a bit faster. But rest assured, saving time doesn't mean sacrificing that classic BBQ taste! Each Weber<sup>®</sup> gas grill

comes equipped with Flavorizer<sup>®</sup> bars - an invention that gives you the convenience of gas while imparting smoke infused flavors to foods. Making a quick and delicious home cooked meal has never been easier!

# IN BRIEF

**1 Cookbox and Lid** – Weber® gas grill cookboxes are durable, efficient, require minimal care and maintenance, and can withstand the heat needed to grill at any temperature. The shape of the cookbox, with the lid closed, allows for proper circulation of heat around food for even cooking. Plus, every lid features a built-in thermometer so you can always monitor the temperature of the grill.

**2 Cooking Grates** – Weber® gas grill cooking grates come in two heavy-duty materials: stainless steel, and porcelain-enameled, cast-iron. Each type retains heat evenly and sears food beautifully. Stainless steel rod cooking grates make lovely sear marks, hold heat very well, and clean up with ease. Porcelain-enameled, cast-iron cooking grates combine the ease of porcelain-enamel with the superior heat retention of cast-iron.

**3 Stainless Steel Burners** – Weber® burners are made of high-grade stainless steel. The burner tubes are made of a singular piece of steel with no welds, making them stronger and more resistant to rust and burn-through. Separate burner control knobs give you the ability to grill by the direct or indirect method. The burners are spaced to provide heat across the entire cooking grate. The burner valves have infinite control settings, so you can fine-tune the heat levels.

**4 Flavorizer® Bars** – The innovative Flavorizer® bar system, originated by Weber, is designed perfectly to perform a variety of functions on the Spirit®, Genesis®, and Summit® gas grills. Angled just right, the Flavorizer® bars catch and sizzle drippings, creating the smoke that flavors your food. Any drippings not vaporized by the Flavorizer® bars follow the slope of their unique angle and are funneled away from the burner tubes, down into the grease management system. Not only does this help prevent flare-ups, but it also protects the burner tubes from becoming clogged.

**5 Grease Management System** – The grease management system consists of a removable angled grease tray and catch pan. The grease tray rests beneath the cookbox a safe distance from the burner tubes to prevent the grease from catching fire. Grease is channeled down the grease tray and into the catch pan. The tray easily slides out of the cabinet for cleaning. When the catch pan starts to fill, simply remove the disposable drip pan, toss it in the trash, and replace it with an empty pan.

# SPIRIT® GAS GRILLS

## VERSATILITY IS THEIR SPECIALITY

The dream of standing beside a gas grill with an impressive cooking area, multiple burners, and a wide range of accessory options is not out of reach. Many people who cook on a charcoal grill feel reluctant to make the transition to gas. The jump from a charcoal grill to one of the larger gas grills can seem daunting, but it doesn't have to be that way. The Weber® Spirit® series is a great place to kick-start your gas grilling adventure. After using a Spirit® gas grill for the first time, all of your reservations will melt away. It offers an abundance of cooking space, the option of direct or indirect heat. Upgrade your grill with a host of extra features, depending on your needs. Grilling a delicious meal for family and friends has never been so quick and easy!

## WEBER FACT: IT'S NOT PAINT!

If it looks like paint is peeling off the inside of your lid, don't worry. It's not paint. The flakes you see are just accumulated cooking vapors that have turned into carbon. They are not harmful, but you can get rid of them by brushing the lid with a Weber stainless steel grill brush.

## 30 YEARS OF EXCELLENCE

Rewind the clock back to 1985 - a true landmark year for any Weber enthusiast. The Genesis® gas grill introduced the concept of Flavorizer® bars - the invention that gives you the convenience of gas and the great flavor of charcoal.

# CHARCOAL GRILLS

It's the weekend, your visitors are due to arrive soon, and the menu has been planned. Light the charcoal with a Rapidfire® Chimney Starter, watch as the coals transform into a glowing heat source and immerse yourself in the grilling ambience. This is the essence of the charcoal grill.

The world of the charcoal grill is essentially back to basics – returning to the original experience of cooking over an open fire. In front of you now stands the modern fireplace. Take your time to light the grill, focus on the details, practice controlling the temperature, and enjoy the process as the food cooks. This is pure meditation after a busy week – and precisely what the charcoal grill provides.

## ONLY ONE ORIGINAL

Weber's founder, George Stephen, invented the World's first kettle grill. The innovative and meticulously designed kettle makes it possible to grill just about anything in the comfort of your backyard.

# IN BRIEF

- 1 Bowl and Lid** – Weber® kettles combine traditional design with an innovative production. Made of steel and coated with porcelain enamel, the bowl and lid are formed exactly right to allow heat to circulate around the inside of the grill for even cooking. The porcelain enamel is baked on at approximately 1500°F ensuring that your grill will not only withstand the heat, but also resist rust- and burn-through. In addition, the smooth, hard-wearing surface makes clean up easy.
- 2 Damper** – Closed-lid cooking is a signature Weber® design. The rust-resistant aluminum damper allows for proper airflow and complete heat control, which makes for superior grilling.
- 3 Cooking Grate** – Weber’s charcoal cooking grates are durable, easy to clean, and lock in the heat for those beautiful sear marks. The hinged grates allow you to conveniently add charcoal while cooking without having to remove the food and lift the entire grate.
- 4 Charcoal Grate** – The Weber® charcoal grate has what it takes to withstand the heat. The grate is made of heavy-duty plated steel to prevent warp or burn through.
- 5 One-Touch™ Cleaning System** – The One-Touch™ cleaning system makes clean-up hassle free. As you rotate the handle, the three blades in the bowl move ash through the vents in the bowl and down into the ash catcher. The aluminum ash catcher lifts out for easy ash disposal and cleaning. The fully enclosed ash catcher keeps ashes from blowing around and is easily detached for quick and clean ash removal. This not only makes cleaning out the bowl a breeze but also helps keep you cooking longer by preventing the build-up of ashes that blocks vents and suffocates the fire.

# SMOKEY MOUNTAIN COOKER™ SMOKER

Once your taste for smoke has developed, the next step is to experiment with the Weber® Smokey Mountain Cooker™. Weber's smokers are designed to cook food over an extended period of time - a method that has become well known for classics such as pulled pork and ribs. Cooking 'low and slow' keeps the juices and flavor in your food that will eventually produce an extremely tender piece of meat. The Smokey Mountain Cooker™ comes in three sizes: 14 inch, 18 inch, and 22 inch.

## IN BRIEF

- 1 Built-In Thermometer** – The durable, built-in lid thermometer allows for easy monitoring of your smoker's temperature.
- 2 Heavy-Duty Cooking Grates** – Two plated steel cooking grates provide ample room for smoking ribs and a roast at the same time.
- 3 TEMPERATURE GROMMET**– High-temperature, silicone grommet allows for easy access into the smoker for temperature probes.
- 4 PORCELAIN-ENAMELED WATER PAN** – Adds steam to the smoking process so meat stays moist and tender.
- 5 CHARCOAL CHAMBER** – Designed to keep your charcoal in a concentrated area and in a uniform shape, helping to control temperature.

# GOURMET BBQ SYSTEM™

The Gourmet BBQ System™ takes grilling to a new level. Unique cookware expands cooking possibilities to create the ultimate experience.

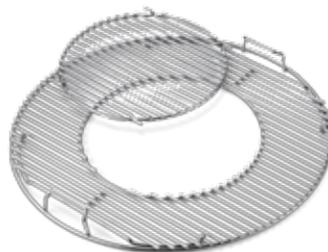

The Gourmet BBQ System™ paves the way to a brighter future for grilling fanatics who don't like to leave the yard. The cooking grates have a detachable circular insert that can be replaced with any piece of the Gourmet BBQ System™ cookware: wok, griddle, sear grate, pizza stone, or poultry roaster. The cookware expand cooking possibilities by delivering professionally seared steaks and chops on the sear grate, delicious breakfast in the griddle, spicy stir-fry and soups in the wok, and even crispy pizza on the cordierite pizza stone. The best solutions are often the simplest.

## FOR BOTH GAS AND CHARCOAL

The Gourmet BBQ System cooking grates fit 22 inch kettles and Performer® charcoal grills, as well as Weber® Spirit®, Genesis® and Summit® gas grills. Remove the center insert grate and replace with any piece of Gourmet BBQ cookware. Use the grilling area around the cookware for preparing the rest of your meal. Welcome to a la carte grilling!

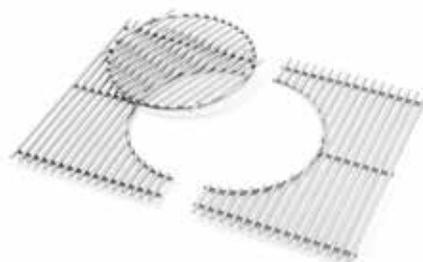

- 1** Grill traditionally across the entire cooking surface.
- 2** Or remove the cooking grate center insert.
- 3** And replace with the Gourmet BBQ System™ cookware of your choice.

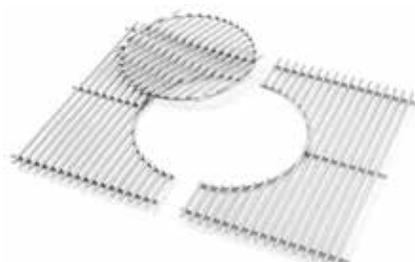

### 8835 - HINGED COOKING GRATE

Hinged cooking grate allows you to add more charcoal without removing the grate. 12 Inch plated grate insert allows for traditional grilling. Fits 22 inch Weber® charcoal grills.

### 7586 - STAINLESS STEEL GAS GRILL COOKING GRATES

Stainless steel cooking grate and 12 inch stainless steel grate insert allows for traditional grilling. Fits Spirit® 300 series gas grills.

### 7587 - STAINLESS STEEL GAS GRILL COOKING GRATES

Stainless steel cooking grate and 12 inch stainless steel grate insert allows for traditional grilling. Fits Genesis® 300 series gas grills.

### 7585 - STAINLESS STEEL GAS GRILL COOKING GRATES

Stainless steel cooking grate and 12 inch stainless steel grate insert allows for traditional grilling. Fits Summit® 400/600 series gas grills.

# GOURMET BBQ SYSTEM™ COOKWARE

Cookware for use with the Gourmet BBQ system™ cooking grates. Grates available for charcoal and gas grills.

## 1 7421 - GRIDDLE

Porcelain-enameled, cast-iron griddle retains heat and seals in moisture and flavor. The porcelain-enameled finish prevents sticking and allows for easy clean-up.

## 2 8838 - POULTRY ROASTER

Two-in-one design allows for cooking vegetables and/or roasting poultry. Removable poultry insert allows for a variety of liquids for roasting and quick change between functions. Poultry insert holds a 12-ounce can.

## 3 7422 - WOK

Porcelain-enameled, cast-iron wok retains heat and seals in moisture and flavor. This large wok can be used for a variety of meals, from traditional stir-fry to hearty chili. The porcelain-enameled finish prevents sticking and allows for easy clean-up.

## 4 8836 - PIZZA STONE WITH CARRY RACK

Pizza stone enables you to add a smoky flavor to your favorite homemade pizzas! Cordierite stone absorbs moisture during cooking, producing light and crispy thin crust pizza. Carry rack makes transporting the pizza quick and easy.

## 5 8834 - SEAR GRATE

Porcelain-enameled, cast-iron sear grate retains heat and delivers professional sear marks every time. The porcelain-enameled finish prevents sticking and allows for easy clean-up.
