

NEW Weber GARDEN LITES

Provide the very latest in Modern
Exterior Illumination.

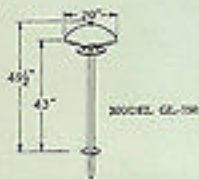

- For Terraces, Gardens
- Along Driveways and Walks
- Around Borders and Pools
- At Stairways and Ramps

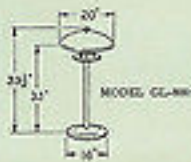

MODEL GL-100

For reading, table games, or sit-chat on the terrace, you'll like the easy lighting, the easy portability of the New WEBER GARDEN LITES. In the yard or garden, they seem like friendly sentinels, inviting you to walk along the pathways they illuminate. Because they direct light downward, there is no unsightly glare. Only areas which you want illuminated receive light, others blend away into the shadows.

MODEL GL-100

MODEL GL-800

SPECIFICATIONS: Each model comes with a choice of green or red enameled aluminum shade. Base is enameled dull black. Equipped with round base for portability, or spike for setting in the ground. 6-foot rubber-covered cord and plug may be plugged into any convenient lamp outlet. Equipped with weather-resistant outdoor socket—removable shade permits easy access. Comes individually boxed, with easy-to-read instructions for assembly.

MODEL GL-100: 49 1/2-inch overall size with base (see diagram). Ship. wt. 17 lbs. List \$29.00.

MODEL GL-200: 47 1/2-inch overall size with spike (see diagram). Ship. wt. 14 lbs. List \$24.00.

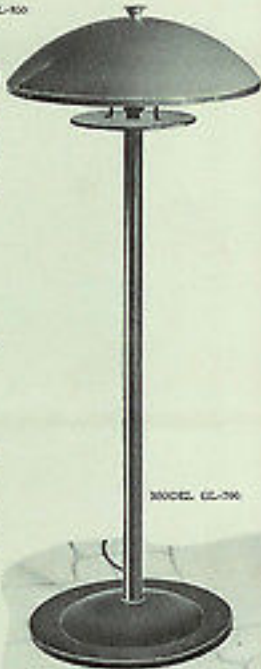

MODEL GL-800: 35-inch overall size with base (see diagram). Ship. wt. 14 lbs. List \$29.00.

MODEL GL-100: 33-inch overall size with spike (see diagram). Ship. wt. 13 lbs. List \$24.00.
