these outstanding features make **WEBER®** KETTLES

the choice of barbecue experts

- 1 Easy-to-use dampers regulate heat — have positive stops and provide full-range cooking control.
- 2 "Long-last" porcelain finish inside and out — a durable surface for lasting beauty.
- 3 The Original WEBER Cover ends flare-ups — holds in heat, eliminates scorching and burning and puts out coals.
- 4 Scientifically spaced dual grills — one for charcoal, one for food — need no adjustment, and have no moving parts to wear.
- 5 Weather-proof Aluminum ash-catcher, dampers, and legs — will not rust.
- 6 Rugged, whitewall, rubber-tired wheels — oversize for easy moving.
- 7 Easy to assemble — 2 hubs.
- 8 Walnut handles on Covers

700 SERIES — Lifetime porcelain finish. Aluminum ash catcher, legs, and fixtures. Whitewall, rubber-tired wheels. 22¾" grill diameter, 29" height. Shipped in single carton, 5.9 cu ft., 36 lbs.

**Why Foods Cook Better . . .
IN A WEBER!!**

WEBER kettles cook with reflected heat to combine the economy of an oven with the zest of a barbecue.

With the exclusive WEBER cover in place, foods cook in their own juices—stay flavorful juicy and tender even when "well done."

A unique damper system controls heat to suit you—brings out the matchless flavor of the finest cuts . . . even less expensive meats are transformed into gourmet delights.

WEBER PRINCIPLE

Uses two grills, the upper for food, the lower for charcoal. Air circulates all through the charcoal to distribute heat evenly and seal in flavor and juices.

WEBER ECONOMY

WEBER kettles are built to outlast ordinary barbecues and what's more, WEBER gives you real economy too.

Use fewer briquettes to begin with — when through, close all dampers and coals go out almost instantly. Use the same coals up to 5 times — practically pays for itself in charcoal savings alone!
