

Convenient hanging hook. Comes completely assembled, ready to use.

Just turn it on and forget bug problems for the whole season. Operates on pennies a day.

Heavy gauge steel, of course. It's from Weber.

Attractive in any yard, matches your Weber kettle.

7000 volt killer grid. Safe for children, pets, birds, but deadly for mosquitos, moths, gnats ... any flying pests.

Powerful 20w bulb pulls bugs from all over your lot. Two-bulb unit available for football-field-size lots.

Safety shield of heavy gauge steel.

Optional mounting post kit. Put it in your yard as a comforting security light.

THE PROBLEM

Flying Bugs. They're driving you indoors — wasting all the effort and expense you've invested in your backyard. Unpleasant chemical pesticides aren't the solution — they're temporary and potentially hazardous.

NOW, THE ANSWER

The Web. The only safe, modern solution to backyard flying bug problems. The Web gives you back your backyard!

The Web looks like an attractive garden lamp, but it draws flying bugs to its glow and kills them instantly, *electrically*. No chemicals, no poisons—the Web is safe for kids, pets, birds, pollinating insects...and the environment.

The Web comes ready to hang. Just plug it in, and 10 to 12 days later, The Web will have broken the breeding cycle of all flying bugs in your yard, and you'll have a virtually bug-free summer for pennies a day.

WE'VE WORKED THE BUGS OUT

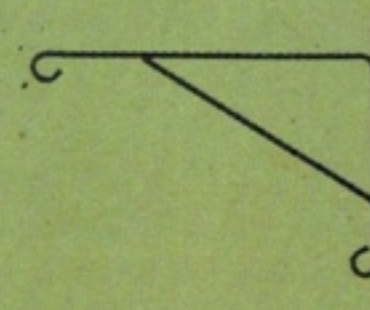

The Web is a tested, reliable product from the company that brings you Weber Barbeque Kettles. Weber knows how hard you've worked on your backyard—get back outside and enjoy it with The Web electric bug killer. You've earned it.

Accessories
for
the
web

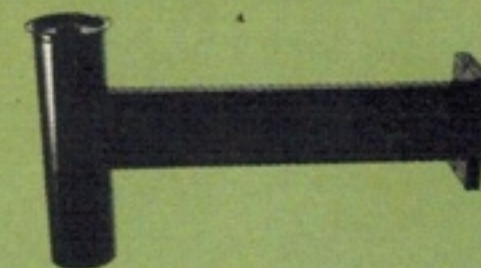

Wall Hanging Bracket

Attractive black wrought iron device that blends with any decor. Mount it anywhere, hang The Web, and plug it in.

Wall Mount Electric Box Kit

Contemporary wall mount fixture, simple to install. Baked enamel over heavy-gauge steel.

Replacement Bulbs (not pictured)

Fits either the one-bulb or two-bulb unit.

Two-Bulb Unit (not pictured)

Same dimensions as one-bulb unit. More powerful reach for oversize backyards.

Mounting Post Kit (see front panel)

Install in any yard for a freestanding garden lamp effect.
