GENESIS®

Gas Barbecues

If it's Weber, it's great outdoors.™

SIMPLY THE BEST GAS BARBECUES YOU CAN OWN.

The Genesis® Barbecues aren't typical, mass-produced aluminum boxes with a burner. Each one we build is the result of sophisticated engineering and uncompromising craftsmanship. Every Genesis Gas Barbecue starts with the quality that comes from nearly 40 years of Weber know-how. And each model is perfected with advances that keep Genesis Gas Barbecues the best available. That's why Weber confidently backs every one with a 5-Year Warranty.

From your first glance, you can see the harmonious balance of form and function—

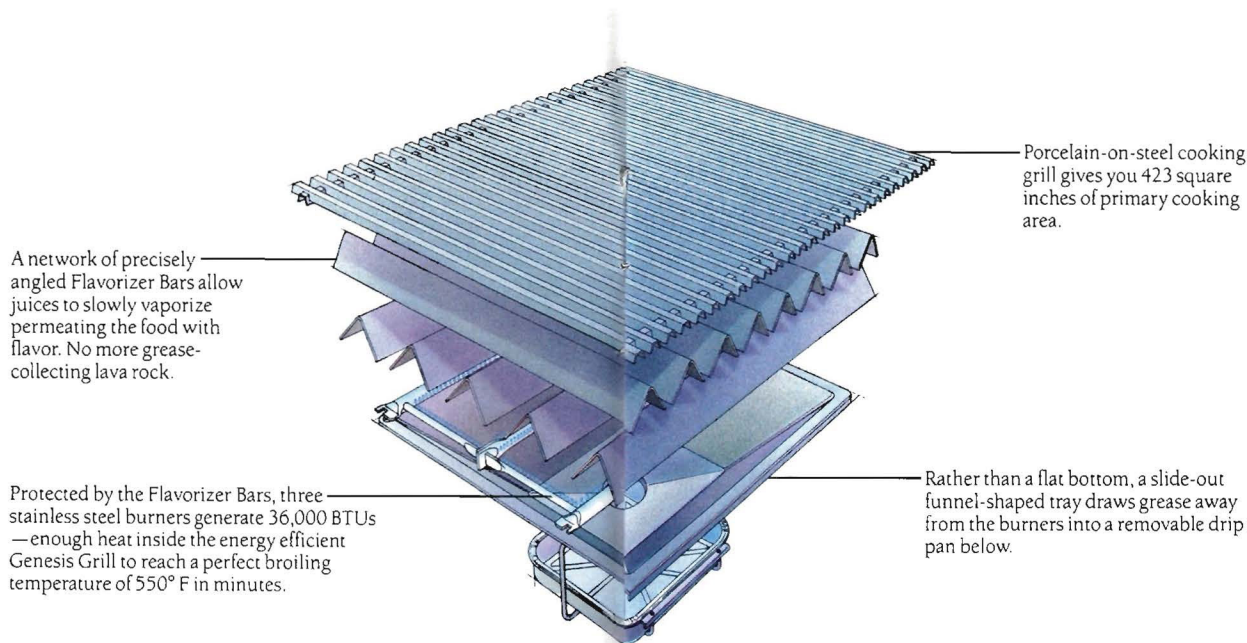

the beauty and durability of the Genesis Gas Barbecue design.

It's construction is tough and durable with features like porcelainized steel cooking surfaces and a welded frame that's coated with poly-urethane enamel to resist rust. Much assembly is done at the factory, so you can easily assemble the cart with just 10 bolts. And it's beauty will last for years and years.

Whether you choose the Genesis Perma-Mount™ Barbecue for built-in luxury, the Genesis Junior Barbecue for smaller patios and balconies, or any of the five models in between, Weber has the Genesis Gas Barbecue to fit your every outdoor cooking need.

If it's Weber, it's great outdoors.™

A network of precisely angled Flavorizer Bars allow juices to slowly vaporize permeating the food with flavor. No more grease-collecting lava rock.

Protected by the Flavorizer Bars, three stainless steel burners generate 36,000 BTUs — enough heat inside the energy efficient Genesis Grill to reach a perfect broiling temperature of 550° F in minutes.

Porcelain-on-steel cooking grill gives you 423 square inches of primary cooking area.

Rather than a flat bottom, a slide-out funnel-shaped tray draws grease away from the burners into a removable drip pan below.

TASTE THE SECRET OF THE EXCLUSIVE WEBER FLAVORIZER® SYSTEM

You'll see how easy great outdoor cooking can be, thanks to an exclusive Weber breakthrough — the Flavorizer System.

The uneven heat and flare-ups of old-fashioned gas barbecues could turn a pleasant cookout into disaster. But now, the Weber Flavorizer System makes delicious outdoor cooking practically foolproof. Porcelain-on-steel Flavorizer Bars receive even heat from three individually controlled gas burners. No more hot and cold spots.

But it's the 52 degree angle of the patented Flavorizer Bars that makes the system so effective. As the meat cooks, juices

drip down onto the Flavorizer Bars slowly enough to allow vapors and smoke to rise up and permeate the food with cookout flavor. What doesn't vaporize drips down away from the burners then into a drip pan below. There's no flat bottom or lava rocks to collect grease and cause flare-ups or fires.

To complete the system, the funnel-shaped pan slides out for easy cleaning. No more charred chicken or incinerated sirloin. Just raves for the chef, every time.

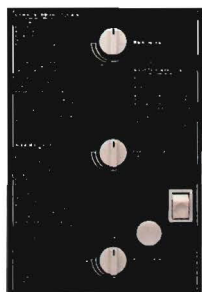

Inside, you'll find 423 square inches of primary cooking space, fully usable, because of the design of the hood. It's high enough to fit a 22 lb. turkey. The warming areas on Genesis 1, 2 and 3 add another 120 square inches, on Genesis 4, 5 and Perma-Mount models, another 215 square inches.

If it's Weber, it's great outdoors.™

TOTAL CONTROL FOR COOKING PERFECTION EVERY TIME

Light one, two, or all three stainless steel burners with a touch of the Weber Crossover® Ignition System. The exclusive Weber Gas Catcher™ Ignition Chamber

The control panel is sealed in porcelain that won't scratch, rust or stain.

protects the igniter and assures surefire lighting every time. Our Flame Check™ Safety System (Genesis® 4, 5 and Perma-Mount™ Barbecues only) automatically shuts off the gas if the flame goes out. Weber Spider Stopper™ Guards protect the burner tubes from becoming clogged with spider webs and insect nests.

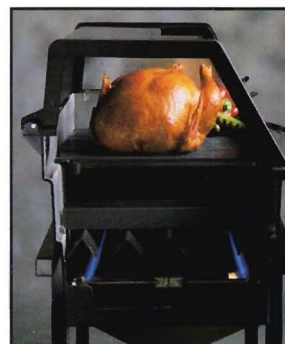

Other gas barbecues boast 50,000 BTUs or more. Our Flavorizer® Bars conduct heat so well that the 36,000 BTUs (22,000 BTUs for Genesis Junior) generated by the fuel-efficient Genesis Gas Barbecue is perfect for maintaining the optimum broiling temperature of 550° F.

Burners are durable stainless steel, located under the Flavorizer Bars, where they're protected from corrosive meat drippings so they last longer. The control knobs let you adjust each burner to any number of settings.

The cooking chamber is built of porcelain-on-steel for easy cleaning and extra-thick cast aluminum for durability. The

Direct Cooking.

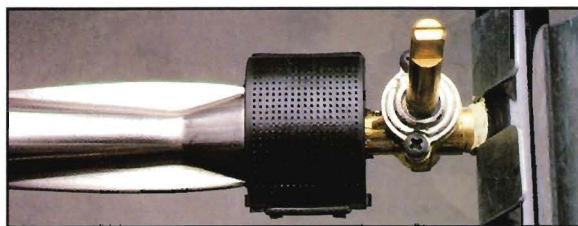

Indirect Cooking.

hood is high enough to fit a 22 lb. turkey. Porcelain-on-steel cooking grills are rust resistant and easy to clean.

The patented Weber Dual Purpose Thermometer tells the temperature inside the cooking chamber and can tell the temperature of your food when used as a probe.

Individually controlled gas burners let you select all three burners for Direct, high-heat searing to grill steaks, chops, burgers, fish or any broiled food.

Patented Weber Spider Stopper™ Guards keep burners free of spider webs, eliminate interior burner cleaning.

Shut off the center burner and use the two outside burners for Indirect, slow cooking of roasts, turkeys or hams. Heat reflecting off the closed lid creates a convection cooking effect, so any roasted food comes out mouthwateringly juicy and evenly cooked.

If it's Weber, it's great outdoors.™

GENESIS® GRILLS BRING OUT THE CHEF IN YOU

It's exciting just knowing how easy great backyard cooking will be when you own a Weber Genesis Gas Barbecue. That's because Weber packs its gas barbecues with so many features designed to make you the best outdoor cook you can be. And with Direct and Indirect cooking, you get versatility you've never before had with outdoor gas cooking. But the excitement really begins when you serve the mouthwatering dishes.

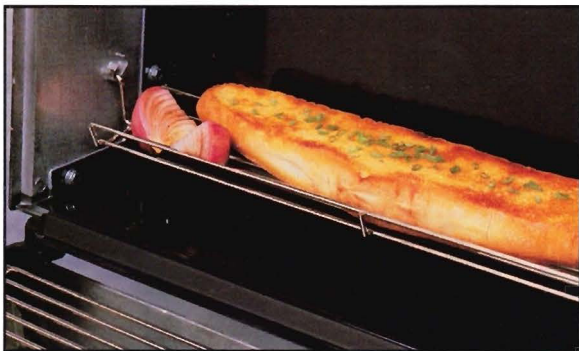

Dishes you thought were difficult to cook, even in the confines of your fully-equipped kitchen, are not only easy to make, they're more delicious. You can make anything on your Genesis Gas Barbe-

cue that you would in your oven, even pizza and bread.

With the complimentary, full-color cookbook, a whole new world of delicious outdoor cooking is at your finger tips. Learn how to cook dishes sure to please every taste. From exciting recipes like Chicken Fajitas, Pecan Stuffed Pork Chops and Leg of Lamb, to simple gourmet treats like Greek-style Burgers, hickory smoked ham or barbecued chicken, your Genesis Grill adds incredible flavor to everything. You can prepare countless, tempting side dishes like stuffed baked potatoes, broccoli casserole or old-fashioned Alabama baked beans. And all the quality Weber Accessories make your Genesis Gas Barbecue even more versatile. It's easy to be the hero of your outdoor cookout, every time.

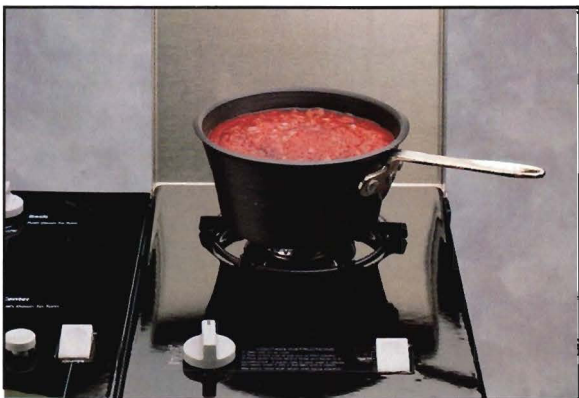

If it's Weber, it's great outdoors.™

WEBER WARM-UP™ BASKET

Tucked into the lid of the Genesis® 4, 5 and Perma-Mount™ Gas Barbecues is a removable, steel Warm-Up Basket. (An accessory for Genesis 1, 2 and 3 Barbecues.) It's perfect for warming bread and vegetables.

SIDE BURNER

Another Weber design feature, the 8,000 BTU side burner with its own control and a porcelain-on-steel surface, stainless steel cover. Perfect for sauces, soups and hot beverages. (Standard on Genesis 3, 5 and Perma-Mount; available as an accessory on Genesis 2 and 4 Barbecues.)

STEAM-N-CHIPS™ SMOKER

Real smokehouse flavor for gas cooking. Add wood chips or chunks and water to the porcelainized Smoker nestled on the Flavorizer® Bars. (Standard on Genesis 4, 5 and Perma-Mount Barbecues; available as an accessory on Genesis 1, 2 and 3 Barbecues.)

WOOD WORKING SURFACES

You'll appreciate the extra work space built into Genesis Gas Barbecues. Swing-up shelves are made of handsome, weather-resistant wood, stained to further resist wear. Removable porcelain-on-steel trays (on Genesis 4, 5 and Perma-Mount Grills only) are perfect for carrying food to or from the kitchen.

If it's Weber, it's great outdoors.™

GENESIS® JUNIOR GAS BARBECUE

The Genesis Junior Gas Barbecue is the gas barbecue for people who are short on space but want a grill that's long on quality and features. It fits perfectly in most smaller patios and apartment balconies. It has all the standard Genesis grill features, plus some of the extra features found on Genesis 2 and 3 Gas Barbecues. Your choice of red, black or chocolate hood colors. Available in LP with hanging weight gauge and 20-lb. tank, or natural gas models with a 12-foot hose and convenient quick-disconnect.

- Fuel efficient 22,000 BTU heat output
- 412 square inches of total cooking area (322 square inches of primary cooking area, plus a 90 square inch warming rack)
- Two long-lasting stainless steel burners
- Crossover® Ignition System and dual flame controls for Direct and Indirect cooking
- Patented Dual-Purpose Thermometer measures either cooking temperature or doneness of food
- Weather-resistant wood swing-up work table and bottom storage area

Height—45" Length—46½" Depth—24"

GENESIS 1 GAS BARBECUE

The affordable entry into the world of Genesis grill convenience and quality for customers who are ready to step-up from other gas or charcoal models. Choice of red, black or chocolate hood colors. Available in LP with hanging weight gauge and 20-lb. tank, or natural gas models with a 12-foot hose and convenient quick-disconnect.

- Fuel efficient 36,000 BTU heat output
- 543 square inches of total cooking area (423 of primary cooking area plus a 120 square inch warming rack)
- Three long-lasting stainless steel burners
- Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- Removable weather-resistant wood work surface, plus heavy-gauge steel wire bottom storage and condiment rack

Height—45" Length—52½" Depth—24"

If it's Weber, it's great outdoors.™

GENESIS® 2 GAS BARBECUE

An intermediate model, the Genesis 2 Gas Barbecue has enough extra features to satisfy the discriminating barbecuer.

It offers plenty of weather-resistant wood workspace for preparing food, as well as the customary Genesis grill features. Your choice of red, black or chocolate. All are available in LP gas models with a hanging weight scale and 20-lb. tank, or natural gas model with a 12-foot hose and convenient quick disconnect.

- ☐ Fuel efficient 36,000 BTU heat output
- ☐ 543 square inches of total cooking area (423 of primary cooking area plus a 120 square inch warming rack)
- ☐ Three long-lasting stainless steel burners
- ☐ Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- ☐ Weather-resistant wood swing-up table, two removable work surfaces plus bottom shelf

Height — 45" Length — 60½" Depth — 24"

GENESIS 3 GAS BARBECUE

The Genesis 3 Gas Barbecue is tailor made for the customer who wants all the features. In addition to our Flavorizer® System for real cookout flavor, the Crossover® Ignition System and Direct or Indirect cooking, it includes a range-style side burner for greater versatility and convenience.

Your choice of red, black or chocolate hood colors. All are available in LP gas models with a hanging weight scale and 20-lb. tank, or natural gas model with a 12-foot hose and convenient quick disconnect.

- ☐ Fuel efficient 36,000 BTU heat output
- ☐ 543 square inches of total cooking area (423 of primary cooking area plus a 120 square inch warming rack)
- ☐ Three long-lasting stainless steel burners
- ☐ Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- ☐ Weather-resistant wood swing-up table, removable work surfaces plus bottom shelf
- ☐ Range-style side burner with separate igniter and gas control, 8,000 BTU output

Height — 45" Length — 60½" Depth — 24"

If it's Weber, it's great outdoors.™

GENESIS® 4 GAS BARBECUE

The Genesis 4 Gas Barbecue comes with everything a barbecuer needs for complete convenience. In addition to such Genesis grill features as our patented Flavorizer® System and Crossover® Ignition, it features two porcelainized side trays and two weather resistant wood swing-up tables. Your choice of grey or burgundy hood with pinstripes. Available in LP gas models with a 20-lb. tank and our hanging weight scale or natural gas with a 12-foot hose, both with convenient quick-disconnect.

- ☐ Fuel efficient 36,000 BTU heat output
- ☐ Two warming areas, including one Weber® Warm-Up™ Basket in the lid and a Warming Rack. 423 inches of primary cooking area plus 215 square inches of warming area for a total of 638 square inches of cooking surface
- ☐ Three long-lasting stainless steel burners
- ☐ Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- ☐ Two grey-stained weather-resistant wood swing-up work tables, two removable porcelain-on-steel serving trays, two grey-stained removable weather-resistant wood work areas and bottom shelf
- ☐ Steam-N-Chips™ Smoker, for true smokehouse flavor
- ☐ Weber Flame Check™ Safety System
- ☐ Locking front casters

Height — 45" Length — 60½" Depth — 24"

GENESIS 5 GAS BARBECUE

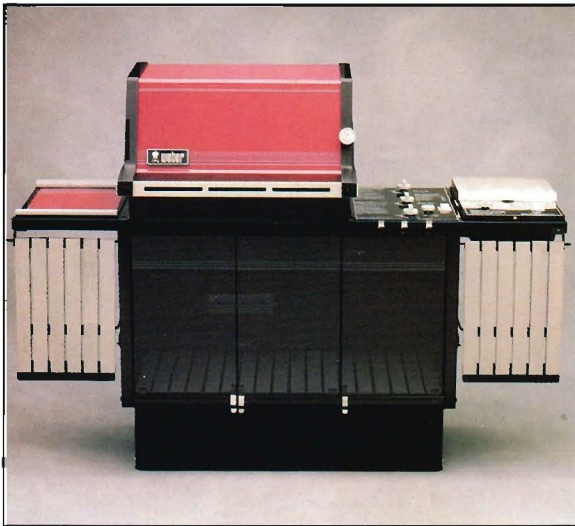

With the addition of the range-style side burner for sauces, side dishes, coffee, etcetera, and enclosed storage area, the Genesis 5 Gas Barbecue is the finest we've ever made. Choose grey or burgundy hoods with pinstripes. Available in LP gas models with 20-lb. tank with hanging weight scale or natural gas models with a 12-foot hose, both with convenient quick-disconnect.

- ☐ Fuel efficient 36,000 BTU heat output
- ☐ Two warming areas, including one Weber® Warm-Up™ Basket in the lid and a Warming Rack. 423 inches of primary cooking area plus 215 square inches of warming area for a total of 638 square inches of cooking surface
- ☐ Three long-lasting stainless steel burners
- ☐ Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- ☐ Two swing-up wood tables, one removable wood work surface plus one removable porcelain serving tray
- ☐ Steam-N-Chips™ Smoker, for true smokehouse flavor
- ☐ Weber Flame Check™ Safety System
- ☐ Locking front casters
- ☐ Enclosed storage area below grill with tempered glass doors, ideal for protecting accessories from the elements
- ☐ Range-style side burner with separate igniter and gas control, 8,000 BTU output

Height — 45" Length — 60½" Depth — 24"

If it's Weber, it's great outdoors.™

GENESIS® PERMA-MOUNT™ GAS BARBECUE

For people who would like a grill that is permanently installed, Weber introduces the new Genesis Perma-Mount™ Gas Barbecue. The state-of-the-art stationary gas barbecue. Available in natural gas model only.

- Fuel efficient 36,000 BTU heat output
- Two warming areas, including one Weber® Warm-Up Basket in the lid and a Warming Rack. 423 inches of primary cooking area plus 215 square inches of warming area for a total of 638 square inches of cooking surface

- Patented Dual-Purpose Thermometer reads either temperature of cooking chamber or doneness of food
- Two swing-up wood tables, one removable wood work surface plus one removable porcelain serving tray
- Steam-N-Chips™ Smoker, for true smokehouse flavor
- Weber Flame Check™ Safety System
- Enclosed storage area below grill with tempered glass doors, ideal for protecting accessories from the elements
- Range-style side burner with separate igniter and gas control, 8,000 BTU output
- Stainless-steel gas line and fittings

Height — 45" Length — 60½" Depth — 24"

EASY INSTALLATION

The Genesis Perma-Mount Gas Barbecue is the solution to a number of tough installation problems. It can be bolted to a patio or wood deck for security. Simply bolt the easy-to-assemble, heavy-gauge steel base to the patio or deck, then bolt the solid Genesis frame to the base.

Each barbecue is packed with a guide showing how to install the Perma-Mount Gas Barbecue.

FIVE-YEAR LIMITED WARRANTY

Weber is so confident of the quality built into every Genesis Gas Barbecue, they're backed with a Five-Year Limited Warranty. See your dealer for details.
