AND NOTHING LESS.

If it's Weber, it's great outdoors.™ **'92**

A little Weber® Grill goes a long way

Go-Anywhere® Grills

Why are our Go-Anywhere Grills the best sellers? It's not because they're the most affordable Weber grills, but because they appeal to so many people.

Sure, the Smokey Joe® Grill fits a limited budget, but it's also favored as a second grill for picnics and tailgate parties.

Urban dwellers choose the Smokey Joe Tuck-N-Carry™ Grill to meet their demand for quality and space, and their desire for a grill to take camping or to the beach. And then there's the Outrider™ Grill, with all the features and portability of the Tuck-N-Carry Grill, in a larger size.

Across America you'll see outdoor enthusiasts using our Go-Anywhere charcoal and gas grills, because they're the best in their class.

There's a Weber Go-Anywhere Grill for every occasion, every lifestyle. Let us help you tailor your Weber Go-Anywhere lineup to meet the demands of your most important customers.

The barbecue grills that started it all.

Charcoal Kettles

WEBER® CHARCOAL KETTLES

Research indicated that just one kind of Weber kettle isn't enough to meet consumer demand. So in 1989 we introduced our good-better-best lineup of charcoal kettle grills to appeal to a broader range of lifestyles and budgets.

From the Bar-B-Kettle™ Grill for first time buyers on a budget, to the classic One-Touch® Kettle for customers who demand convenience and quality from a barbecue, to the Master-Touch™ Kettle for charcoal grill enthusiasts who want charcoal grilling with ease, each features the now trademarked, legendary kettle shape and the quality that's built a worldwide reputation.

With packaging that points out the unique features of each model, and national advertising support, you'll want to stock the right selection for your customers.

DIRECT COOKING

Place burgers, steaks or chops over a single layer of coals, which produces a perfect broiling temperature in any size Weber Kettle. Cook with the lid on for moist, flavorful food, and fast cooking without flare-ups.

INDIRECT COOKING

Place charcoal on either side of a drip pan, and position turkey or roast over the pan. Meat drippings will fall into the pan, producing very little smoke. Cooking with the lid on holds the heat in, and the air coming through the bottom vents is heated and circulated around the meat, simulating a convection oven.

weber

If it's Weber, it's great outdoors.™

THE BAR-B-KETTLE™ GRILL

The "good" in our good-better-best lineup, the Bar-B-Kettle Grill is the kettle that built the company. It has the unique, undemarked shape that says it's a Weber kettle. Direct or Indirect cooking capability. Solid construction with little assembly. Bowl and lid are porcelain-on-steel to resist rusting, burning or staining. The cooking grate is rust-resistant heavy, bright nickel-plated steel. And it's backed by a 1-year limited warranty.

TWO SIZES

The original 22½ inch size offers a spacious 397 square inches of cooking area, large enough for turkeys, platters of steaks, chicken, or vegetables. The smaller 18½ inch size offers 269 square inches of cooking area. Both grills come with our free full-color cookbook. Packed in a two-color carton.

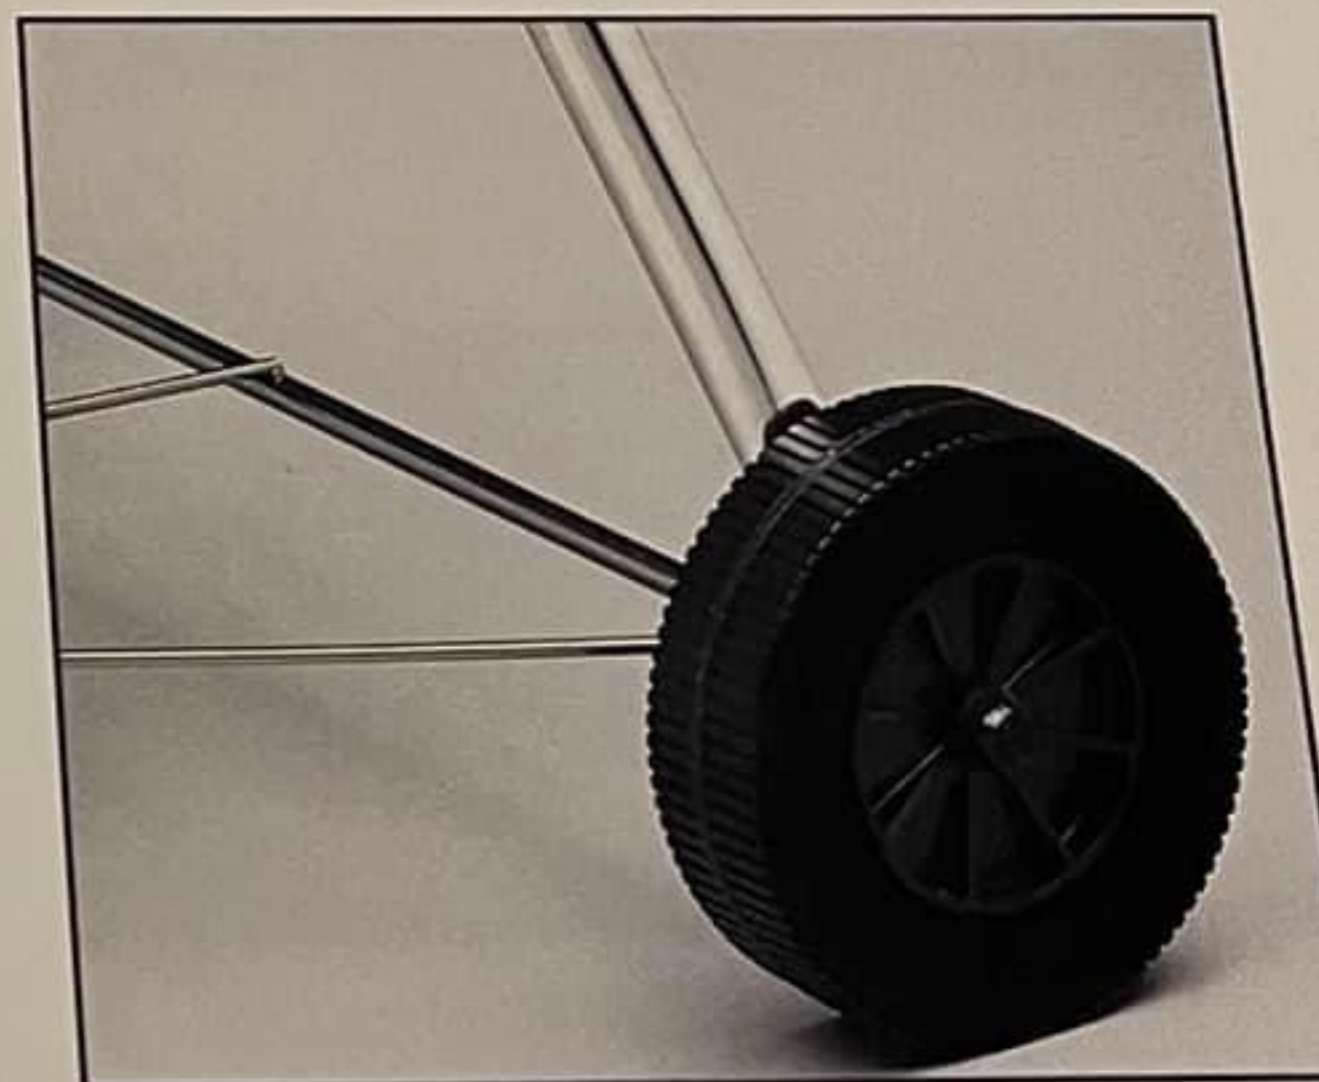

MANUALLY CONTROLLED VENTS

There is one vent on the lid and three vents on the bottom of the bowl. All vents are made of no-rust, durable aluminum and are manually controlled. Close all vents to extinguish fire and save charcoal.

Jet Black 18½ inch #21001
22½ inch #61001

WHEELS FOR PORTABILITY

Wheels are weather-resistant and durable. The heavy, bright nickel-plated bottom brace serves as added support.

THE ONE-TOUCH® KETTLE

The "better" in our good-better-best lineup, the easy-to-assemble One-Touch Kettle is our classic best seller that stays at the top thanks to its patented One-Touch Cleaning System and patented ash catcher. The bowl and lid are made of heavy-gauge steel sealed with porcelain enamel to resist rust and fading. Backed by our 5-year limited warranty.

TWO SIZES

The original 22½ inch size offers a spacious 397 square inches of cooking area, large enough for turkeys, platters of steaks, chicken, or vegetables, while the smaller 18½ inch size offers 269 square inches of cooking area. Both grills come with our free full-color cookbook. Packed in a full-color carton that makes an attractive in-store display.

EXCLUSIVE ONE-TOUCH® SYSTEM FOR EASY CLEANING

Only Weber offers the One-Touch Cleaning System (patent #RE33,091). Move one lever to open and close all three bottom vents and easily sweep out ashes. The ash catcher (patent #4,576,140) simplifies disposal.

DURABLE WHEELS AND RACK

Rugged wheels (patent #D249,678), crackproof to minus 40 degrees F, stand up to the most extreme temperatures, and no-rust aluminum legs are built to last. Heavy, bright nickel-plated bottom brace serves as added support.

If it's Weber, it's great outdoors.™

THE MASTER-TOUCH™ KETTLE

The Master-Touch Kettle offers superior features and convenience for charcoal grilling. Backed by our 5-year limited warranty.

In addition to the porcelain-on-steel finish and solid construction of the Weber One-Touch® Kettle and the One-Touch™ Cleaning System, the Master-Touch Kettle also has a Tuck-Away™ Lid Holder (patent #4,777,927), Dual-Purpose Thermometer (patent #4,777,927 and #4,966,125), and Char-Basket™ Fuel Holders (patent #4,777,927), to make Direct or Indirect cooking with charcoal or wood easier than ever before.

The 22½ inch Master-Touch Kettle offers an expansive 397 square inches of cooking area for turkeys, roasts or other large cuts of meat with room to spare for vegetables. Packed in a full-color carton for attractive in-store displays.

TUCK-AWAY LID

The Master-Touch Kettle is the first Weber kettle with a lid that stores away for convenience. Lid also serves as a wind shield when lighting the grill.

CHAR-BASKET FUEL HOLDERS

Rugged coated steel fuel holders allow convenient Indirect and concentrated Direct cooking flexibility with wood or charcoal.

PATENTED DUAL-PURPOSE THERMOMETER

Our Dual-Purpose Thermometer allows you to monitor the cooking temperature inside the grill, or use the thermometer as a probe to easily check the doneness of food.

The Ranch Kettle is big enough to cook 19 chickens, plus vegetables.

THE RANCH™ KETTLE

With 1104 square inches of cooking area, the Ranch Kettle is a giant-sized kettle suited for big groups. It's 37½ inches across, 31½ inches high, and features the same solid construction of all Weber grills. Flip-up sides on the cooking grate allow for easy access to coals. Patented Tuck-Away™ Lid stores away for convenience. Removable ash catcher allows for quick cleanups. Two weather-resistant nylon handles and damper handle stay cooler to the touch. Locking casters allow for easy movement.

5-year limited warranty.

The Smokey Mountain Cooker Smoker is packed with a heavy-duty vinyl cover.

SMOKEY MOUNTAIN COOKER™ SMOKER

Like all Weber products, the Smokey Mountain Cooker Smoker is built to last. It's made of heavy-gauge steel sealed inside and out with black porcelain enamel that won't rust, burn or stain. Two heavy, bright nickel-plated 18½ inch diameter cooking grates provide ample room for smoking a turkey and ham at the same time. There's also a solid wood handle, a porcelain-on-steel water pan, and a rust-resistant aluminum fuel door for added convenience. Packed with a heavy-duty vinyl cover. Backed by our 5-year limited warranty. 18½ inch diameter. #2890 Jet Black.

The Charcoal Barbecue Cooking Rotation.

THE WEBER® PERFORMER™ GRILL WITH TOUCH-N-GO™ GAS IGNITION SYSTEM

Finally, the taste of charcoal grilling with the convenience of a gas start. Our newest innovation, the Weber Performer Grill, is equipped with all the features of the Master-Touch™ Kettle, but uses an exclusive Touch-N-Go Ignition System (patent pending) to light charcoal briquettes with the push of a button. A gas burner directs the flame into the Char-Basket™ Fuel Holders, igniting charcoal in 5 minutes. Coals are ashed over and ready for cooking within 25 minutes.

Loaded with a number of smart features, the Performer Grill with Touch-N-Go Ignition System includes a convenient, heavy-duty bottom storage rack, stainless steel tool holders, refillable 5 lb LP tank with handle, and nylon handles on the lid that stay cooler to the touch.

The patented One-Touch™ Cleaning System easily sweeps out ashes or opens and closes vents. The porcelain-on-steel lid and bowl won't rust, stain or burn. It's easy to assemble and comes with a 5-year limited warranty.

THE WEBER PERFORMER GRILL

The Weber Performer Grill is also available without the Touch-N-Go Ignition System. Under the stainless steel panel, in place of the filter panel and LP tank, is a small area to store matches, Weber® FireStarters or other accessories away from the elements.

All other features remain the same, including the convenient bottom storage rack, stainless steel work surface, stay-cool nylon handles, Char-Basket™ Storage Container and high-capacity ash catcher. It also comes with a 5-year limited warranty.

TOUCH-N-GO™ IGNITION SYSTEM

With the mere push of a button, the innovative Touch-N-Go Ignition System ignites charcoal briquettes in less than 5 minutes using a gas burner. Coals are ashed over and ready for cooking within 25 minutes.

TUCK-AWAY™ LID HOLDER AND MORE

Convenient Tuck-Away Lid Holder leaves both hands free for cooking. Nylon handles stay cooler to the touch. Patented removable Dual-Purpose Thermometer monitors either grill or meat temperature.

DIRECT COOKING METHOD

Rugged Char-Basket Fuel Holders slide together for ease and precision when cooking by the Direct method with charcoal or wood. Use this method to produce perfect broiling temperature for burgers, steaks or chops. Cooking with the lid on circulates heat and prevents flare-ups.

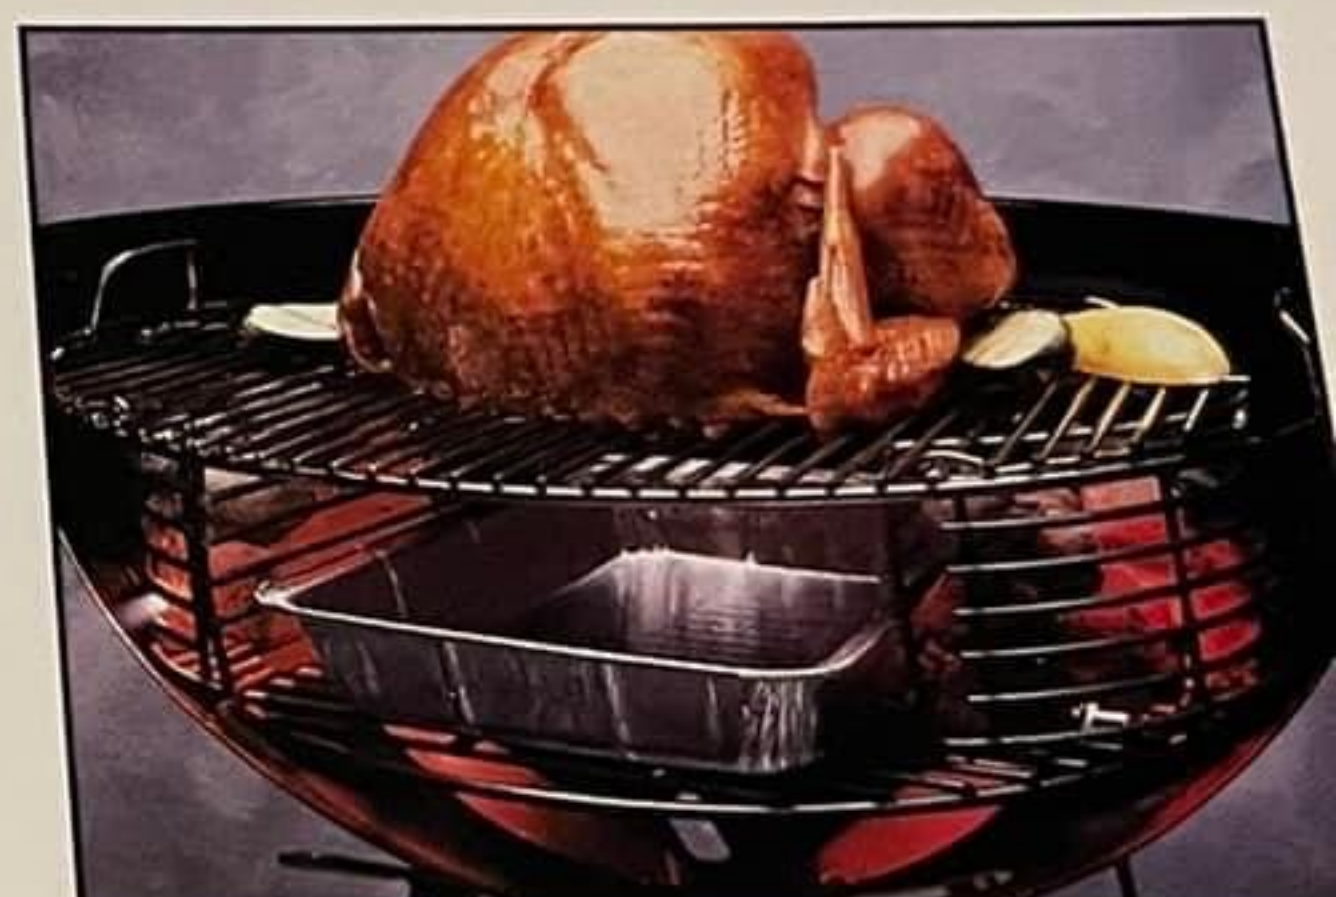

20 lb CHARBIN™ STORAGE CONTAINER

The Performer Grill's stable, notched frame supports a stainless steel area. Protected underneath is the Touch-N-Go Igniter Panel and a convenient CharBin Storage Container which holds over 20 lbs of charcoal. So you have room to prepare food while charcoal away from moisture.

DELUXE ASH CATCHER UNIT

Cleanups are easy with the high-capacity aluminum ash catcher (patent pending) that locks in place, eliminating blowing ashes.

INDIRECT COOKING METHOD

Char-Basket Fuel Holders easily slide apart for the Indirect cooking method. Just place meat directly over a drip pan centered between Char-Basket Fuel Holders, and cook with the lid on. Air coming through bottom vents will heat and circulate around the meat, simulating a convection oven.

HINGED COOKING GRATE

Flip-up sides on the cooking grate allow for easier access to charcoal and Char-Basket™ Fuel Holders while cooking.

Additional Features of Genesis® 4 and 5 Gas Barbecues

COMPLETE COOKING CONTROL

All Weber Gas Barbecues feature our Crossover® Ignition System (patent #4,677,964) which instantly lights all three burners with the touch of a button. As an extra safety feature, only Genesis 4 and 5 models have the FlameCheck™ Safety System which shuts off the gas automatically if the flame goes out. The control panel is sealed in porcelain and won't scratch or rust. A handy meat doneness chart is permanently fired onto the control panel.

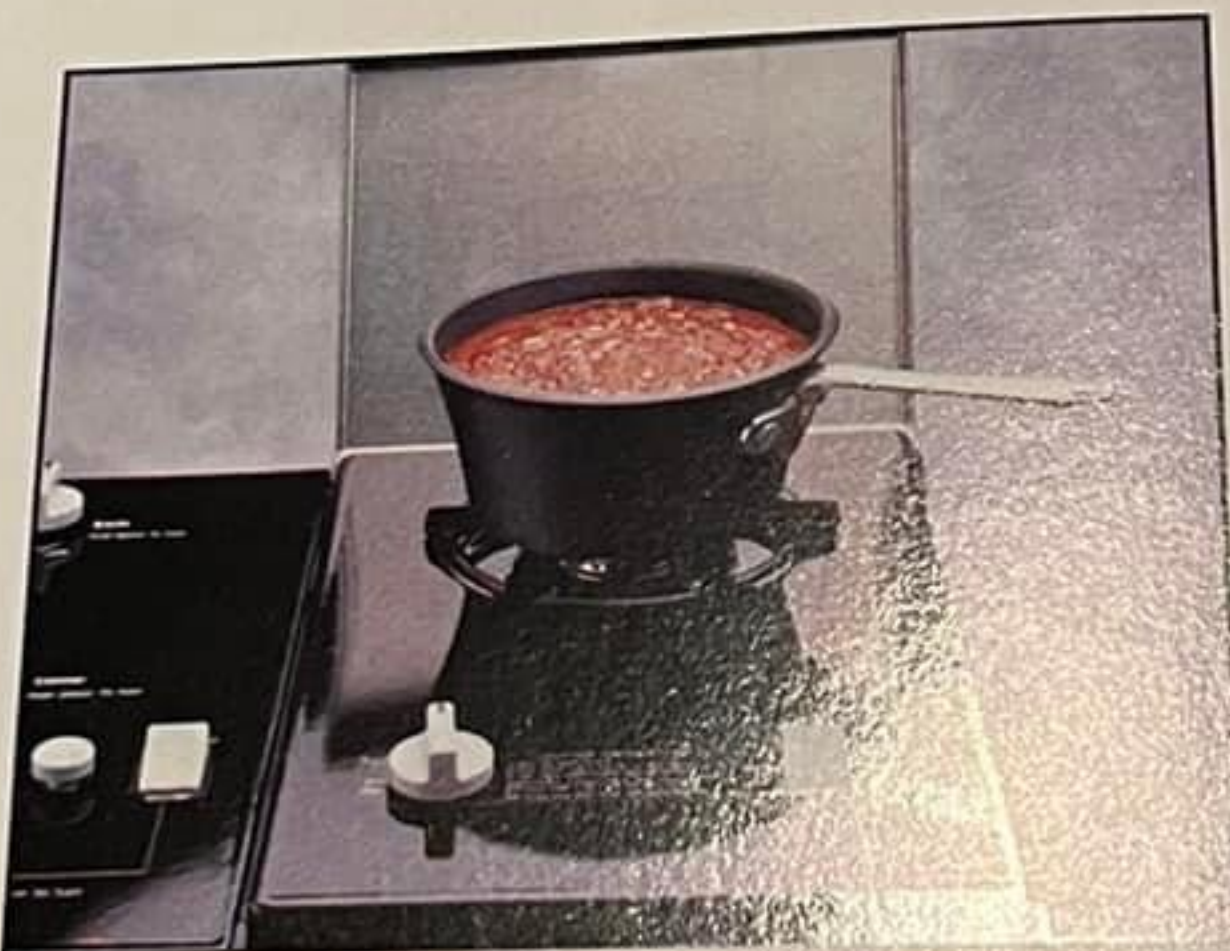

QUICK-DISCONNECT COUPLING

An easier way to disconnect the gas hose from the tank. No tools needed. Underwriter's Laboratory listed and certified by both the American and Canadian Gas Associations. Standard on Genesis 4 and 5 Gas Barbecues.

A GRILL – AND A SMOKER

With the unique Steam-N-Chips™ Smoker (patent pending) it's easy to add smokehouse flavor to foods barbecued on a gas grill. Just add wood chips or chunks and water to the porcelain-on-steel smoker. It's standard on the Genesis 4, 5 and Perma-Mount™ Gas Barbecues, and available as an accessory for Genesis 1, 2 or 3 Gas Barbecues.

RANGE-STYLE SIDE BURNER

A side burner (patent #4,177,027 and #D293,067) is great help when it comes to preparing side dishes, sauces, coffee, etc., without having to run in and out of the house. Ours has 8,000 BTUs, porcelain-on-steel surface with stainless steel cover, and its own separate control. It's a Weber innovation. It's standard on Genesis 3, 5 and Perma-Mount Gas Barbecues, and available as an accessory for Genesis 2 and 4 Gas Barbecues.

WOOD WORK SURFACES

All Genesis Gas Barbecues have at least one work space made of sturdy weather-resistant wood, which can be removed and used as a serving tray. Some models have additional work surfaces or swing-up tables. Genesis 4 and 5 Gas Barbecues also include a porcelainized serving tray for added convenience.

WEBER WARM-UP™ BASKET

Expand your grill cooking area with this heavy, bright nickel-plated steel Warm-Up Basket (patent pending). Perfect for bread, rolls and vegetables. Removable for easy cleaning. Standard on Genesis 4, 5 and Perma-Mount Gas Barbecues, and available as an accessory for Genesis 1, 2 and 3 Gas Barbecues.

weber

If it's Weber, it's great outdoors.™

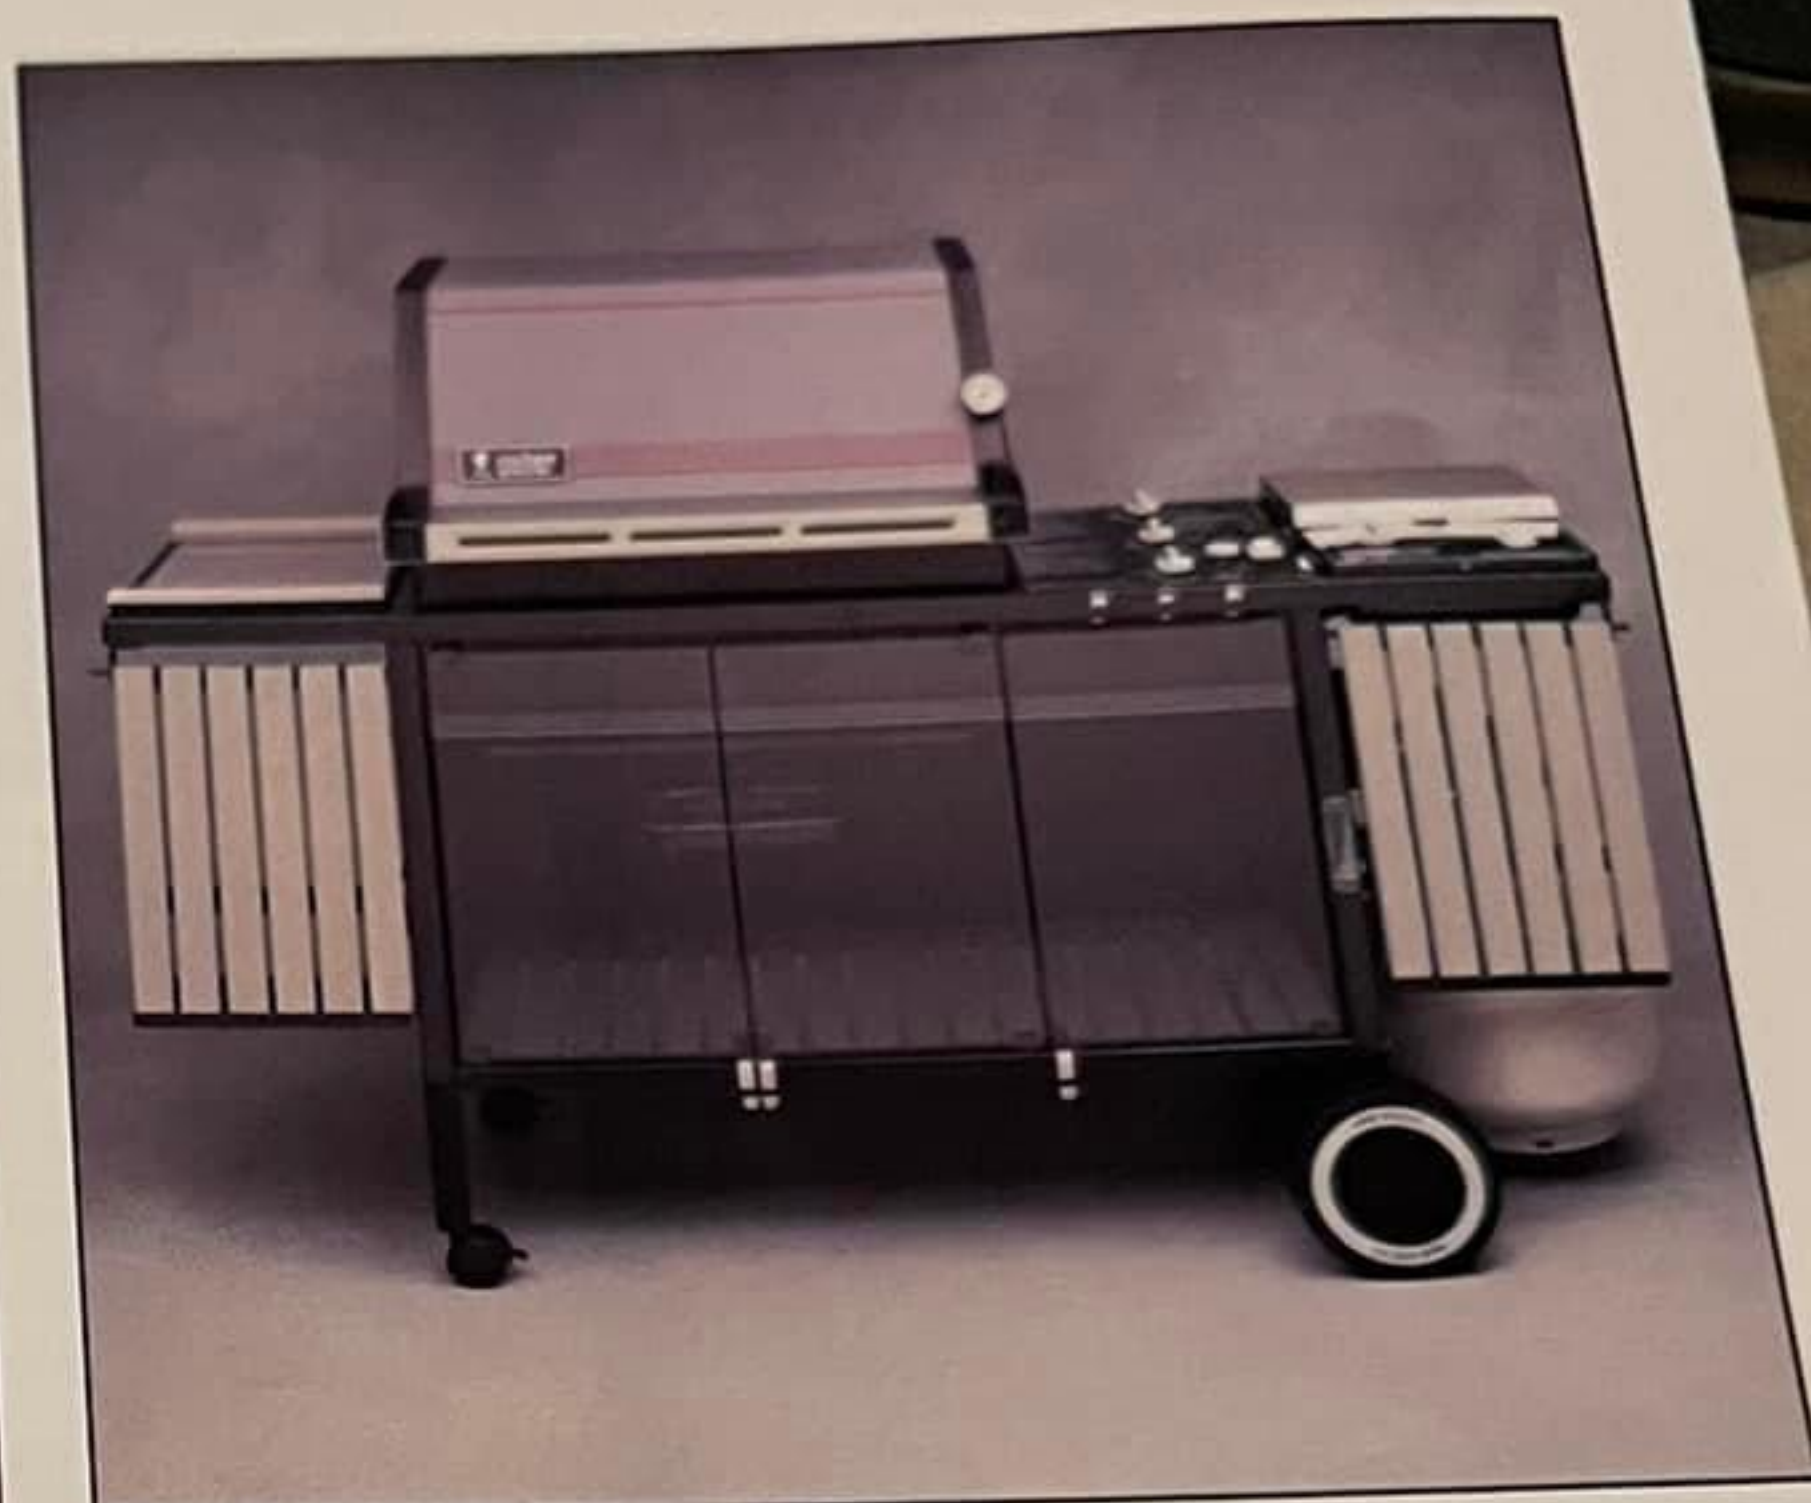

GENESIS® 4 GAS BARBECUE

The Genesis 4 Gas Barbecue contains everything a barbecuer needs for complete convenience. It features the FlameCheck™ Safety System and two swing-up tables. Your choice of grey or burgundy hood colors with pinstripes. Available in LP gas models with patented hanging tank scale and 20 lb tank, or natural gas models with a 12 ft hose, both with convenient quick-disconnect.

- ☐ Fuel efficient 36,000 BTU heat output
- ☐ Two warming areas, including a Weber Warm-Up™ Basket in the lid and a warming rack, for a total of 638 square inches of cooking area (423 square inches of primary cooking area and 215 square inches of warming area)
- ☐ Steam-N-Chips™ Smoker for true smokehouse flavor
- ☐ Dual-Purpose Thermometer monitors grill or food temperature
- ☐ Three stainless steel burners with Crossover® Ignition System
- ☐ Two weather-resistant wood swing-up work tables, two removable porcelain serving trays, two removable wood work areas, and a bottom shelf
- ☐ Weber FlameCheck™ Safety System
- ☐ Locking front casters.
- ☐ Height 45", length 60½", depth 24"

Weber® FireStarters

WEBER® FIRESTARTERS

Here they are—the best thing since the match. Weber FireStarters not only replace fluid starters, they are the safest, easiest, most effective way to light a fire. Stunning four-color packaging will have it disappearing from your shelves in no time. Comes packed in a shipper-displayer.

EASY TO USE – LIGHTS EVEN WHEN WET

Hold a match to the cube and it lights as easily as a birthday candle, yielding a high, steady flame. And it burns strongly at 1300° F (700° C) for about 13 minutes when lit. In fact, Weber FireStarters are so reliable you can even light them when they're wet.

GREAT FOR FIREPLACES

Put a couple of cubes beneath a stack of logs, light them, and you'll have a strong fire going in no time. They're more efficient and tidier than kindling. Full-color fireplace-oriented packaging available for winter sales.

STORE ANYWHERE AND TAKE ANYWHERE

Since they aren't volatile and don't spill or smell like lighter fluid, Weber FireStarters are safe to carry or store indoors. And because they're compact, they're ideal for backpacking, camping or picnics.

SAFER – NONTOXIC

Weber FireStarters are perfect for starting charcoal. Place cubes on charcoal grate, light, then pile charcoal around and on top of burning cubes. They light steadily and safely, unlike lighter fluid which can flare-up with explosive force. They're odorless, smokeless, nontoxic and environmentally safe. Packaged 20 cubes per tray providing 5 to 7 starts. 12 trays per master carton.

WE'D LIKE TO POINT OUT
HOW EASY IT IS TO START THE NEW
WEBER CHARCOAL GRILL.

GET THE TASTE OF CHARCOAL WITH THE CONVENIENCE OF A GAS START.

A single touch is all it takes. No matches. No lighter fluid. No problems. Just push a button and the Weber Performer™ Grill's Touch-N-Go™ Ignition System kicks in, evenly and efficiently lighting your coals.

But that's just for starters. Like all Weber One-Touch® Kettles, The Performer features the patented One-Touch™ Cleaning System which sweeps out ashes and opens and closes the vents. It also has a work area and a CharBin™ Storage Container that holds up to 20 lbs of charcoal. Better still, the cook-

ing grate has flip-up sides that provide easy access to charcoal. The Tuck-Away™ Lid conveniently slides back leaving hands free for cooking, and serves as a wind shield. A dual-purpose thermometer monitors meat or grill temperature. And a specially designed high-capacity ash catcher locks into place, eliminating blowing ashes and making cleanup a snap.

The Performer Grill is the most advanced charcoal grill we make. And, like all Weber products, is built to last. It's also available without the Touch-N-Go Gas Ignition System.

The Weber Performer Grill. When it comes to barbecuing, there's just no match.

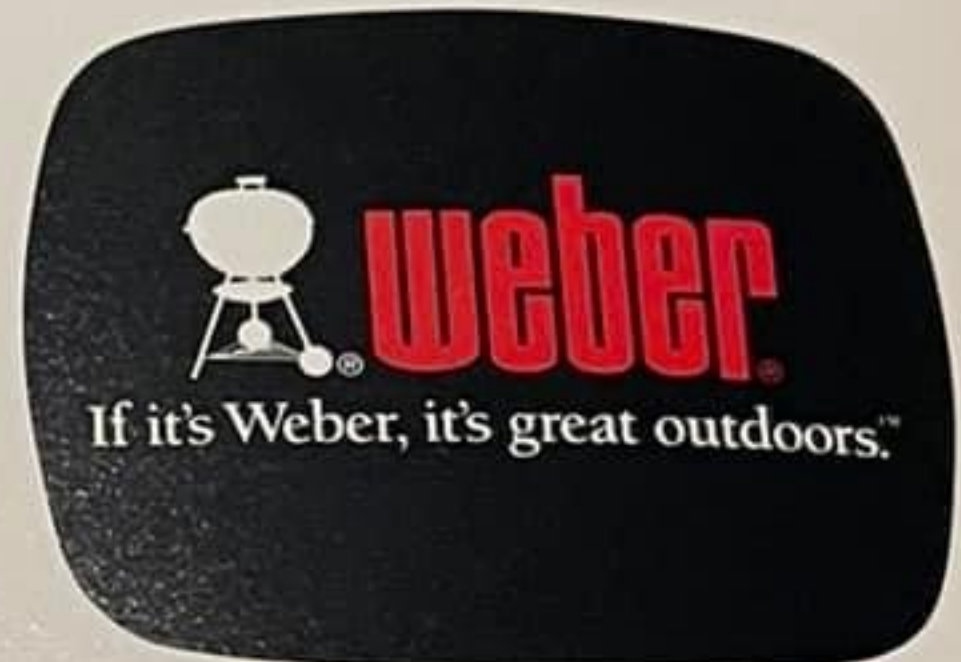

If it's Weber, it's great outdoors.™

The Sales Support You Expect And Deserve

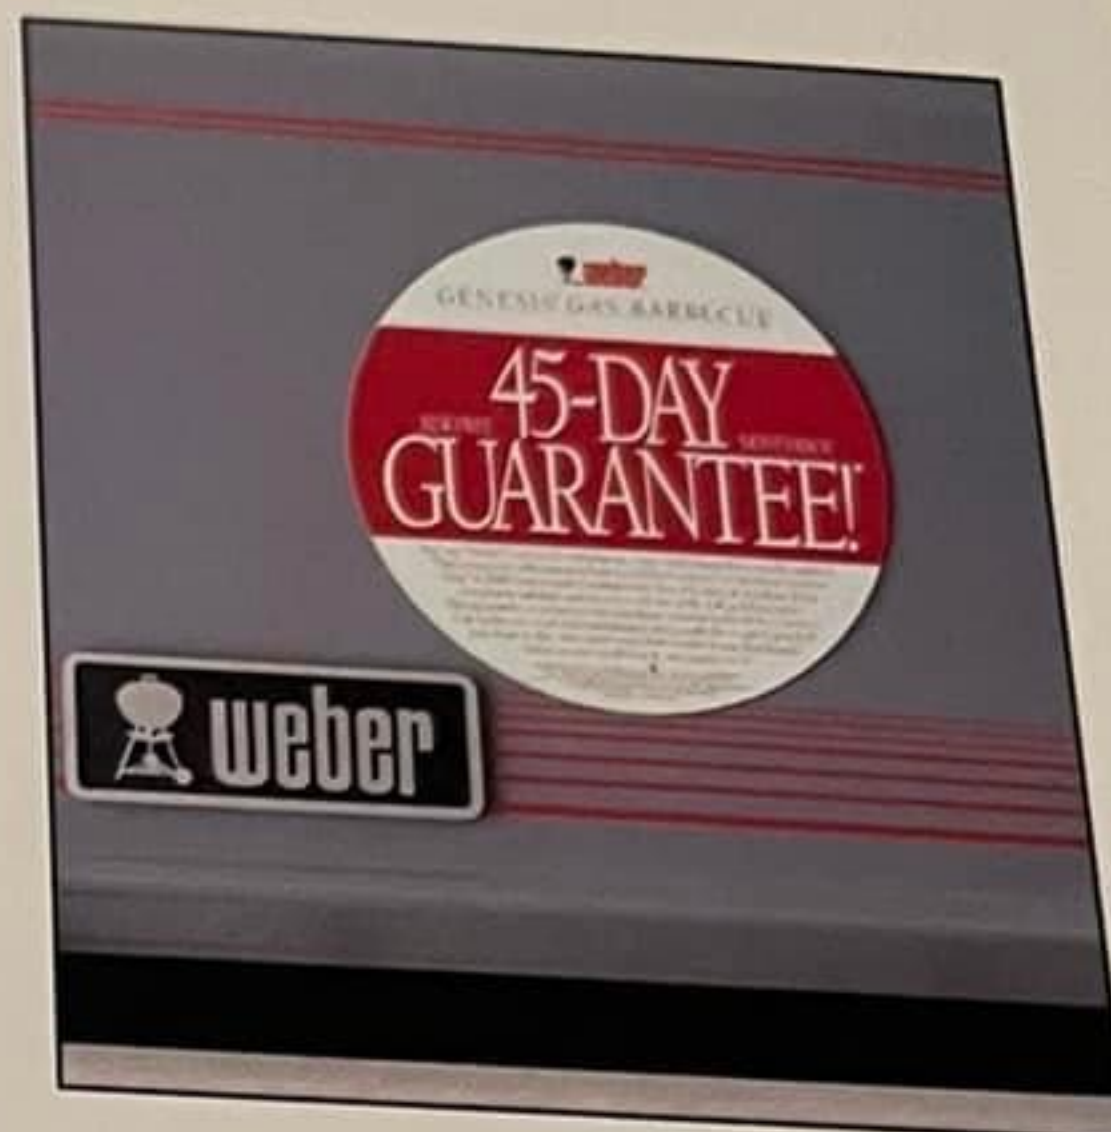

POINT-OF-SALE

Full-color point-of-sale materials are available for Gas, Charcoal, and Go-Anywhere® Grills, as well as Weber® FireStarters,

FireSpice® Cooking Woods, and other Weber products. They serve as silent salespeople, providing consumers with

valuable information that aids their purchase decision.

PRETESTED PACKAGING

Our major product lines, barbecues, and accessories, have been designed and laboratory pretested (including drop tested) under the guidelines of the International Safe Transit Association, to ensure that all Weber products arrive intact.

SERVICE, SERVICE, SERVICE

In our continuing commitment to customer satisfaction and support for Weber dealers, our service system is up-to-date, and continuously getting stronger.

Not only does each and every Weber Barbecue and part come with a warranty, but Weber is the only gas barbecue manufacturer with nationwide service.

We now have over 500 authorized Weber Service Dealers. Timely service and follow-up calls have made opportunities out of problems. Sophisticated data processing provides access to parts availability and warranty card information. Training manuals and regularly updated service bulletins help our service centers offer quick, consistent, and attentive service. We have installed a centralized UPS station to speed up delivery of parts. And our increase in warehouse locations now allows us to get the product to you sooner. We've expanded our Customer Service Center – all to position Weber as an industry leader in quality and service.
